**This year-to-date total does not include the Corporate and Auditing Accountability, Responsibility, and Transparency Act (H.R. 3763), which passed the House this week. When CBO provides a cost estimate for this bill as it passed the House, the RSC will update “The Money Monitor” accordingly.

An authorization explicitly allows funding for a certain program and / or directs a federal agency to take a certain action. Authorizations express the House's intent to spend, however, actual funding is provided through the annual appropriations process. **Authorizations with no net cost, bills that would result in no significant net change in mandatory spending or federal revenue, and private-sector costs from federal mandates are not reported here.**

Mandatory spending directly establishes an appropriation. No subsequent action is required for the money to be spent.

All numbers in “The Money Monitor” are positive unless otherwise indicated.
