Remembering the Holocaust

Washington, DC –Congressman Bob Beauprez (CO-07) released the follow statement in honor of *Yom HaShoah*, the Holocaust Remembrance Day:

“The horrors of the Holocaust, responsible for the lives of six million innocent people, are tragically as real today as they were a half-century ago. For many, reports emerging from Iraq stir up cold emotions of fear and horror. I have faith in the human spirit, and I have faith that the Iraqi people will respond to freedom from tyranny with the determination demonstrated by the Jewish people following the Holocaust. As freedom-loving people across the globe hope for an end to tyranny, we will never forget the enormous suffering of the Holocaust.”

A list of local events is available on the Congressman’s website at <http://www.house.gov/beauprez>.
